## E-Z Fold Hydrant Marker

### Scope:

This specification sheet covers the manufacturers' requirements for the fiberglass safety markers. All markers meet or exceed industry standards and requirements.

### Materials:

3/8" Rigid solid pultrusion fiberglass rod coated with Sunguard II™ UV inhibitor.  
3/8" MIL SPEC Zinc Plated Carbon Steel  
Original hinge design with optional locking mechanism and integrated bracket designed for direct mounting.

3M Scotchlite™ Engineer Grade Reflective Sheeting, DOT Certified used for reflective material on rod.

### Marking:

All markers must have a minimum of 8 - 6" wide alternating strips of 3M™ Scotchlite Red 3272 and White 3290 reflective sheeting.

All markers must have safety yellow rubber protective tip and spring bonnet.
